

# ALKALINE WATER Advanced Water Solutions

## The Jupiter Melody

WATER FILTER – ALKALIZER – IONIZER

### JUPITER SCIENCE

#### A Pedigree of Success

Water alkalizer/ionizers originated in Russia in the 1960's. Reports emerged of a life-changing water that was easy to produce, with amazing taste and effects.

The Japanese, with their history of alternative natural therapies and macrobiotic knowledge of our intake of the pH, immediately recognised how alkaline water could assist health. They began manufacturing and within a few years South Korea also with the same health knowledge, followed.

Today, Jupiter Science is the largest manufacturer of water alkalizers world-wide, producing up to 44,000 alkalizers a month. Not only do they export to China, Japan and Western countries but are South Korea's leading exporter as well, comprising 90% of the market.

**ION LIFE** have been appointed world-wide distributors for their flagship model, the *Jupiter JP 104 Melody*.

#### IT'S YOUR CHOICE

Select from up to nine different pH outputs at the touch of a button ranging from high alkaline to neutral and acid water.

Alkaline water, used for drinking and cooking, flows from a stainless steel spout. Simultaneously, acid water outputs via a plastic hose into your sink for collection (2/3 alkaline, 1/3 acid).

Acid water is never wasted and can be used for many purposes. A natural antibacterial, acid water can be used to disinfect wounds and kitchen surfaces. Many plants thrive on it and it's great for hair and skin care – in some countries ionized acid water is sold as 'beauty water' and is a key ingredient in many new natural cosmetics.

33cm high x 25cm wide x 12cm deep

**30 DAY MONEY BACK GUARANTEE PLUS AN EXTENDED  
TWO YEAR WARRANTY ON PARTS AND LABOUR**

#### UNIQUE FEATURES

A patented automatic internal cleansing process occurs after every use, ensuring maximum life from your system. Coral Calcium and Far Infra Red Energy Tourmaline are incorporated in the filter itself. No other system on the market has these major advances.

#### IONIZATION

The *Jupiter Melody* employs computer accurate and selectable magnetic energy in a patented platinum bonded titanium chamber to separate alkaline and acid streams. This process separates and concentrates beneficial alkaline minerals into the alkaline water stream, giving you a concentrated supply of ionized, absorbable Calcium, Magnesium, Potassium and Sodium.

*Jupiter Melody* ionized water is negatively charged, which creates a powerful antioxidant effect through the production of negative Hydrogen (H-Hydroxyl ions).

Ionization restructures and reduces the molecular 'cluster' size of the water, making it super-hydrating and easy to digest.

Many users report that their new water regimen has a powerful detoxifying effect. The process also binds oxygen molecules in the water in the conversion of H<sub>2</sub>O to OH<sup>-</sup> (added oxygen).

**TERMS AVAILABLE TO APPROVED CUSTOMERS.  
IMMEDIATE DELIVERY.**

**Protect yourself and  
your family NOW!**

**After purchase, an unending supply of superb, alkaline, antioxidant, oxygenated,  
microclustered purified water is yours for approximately 0.02 cents per litre.**

# Get High on Life with JUPITER MELODY from ION LIFE

## NOT JUST A FILTER!

The **Jupiter Melody** Biostone filter is a marvel of modern science, incorporating the very latest advances in filtration.

- Absorbable Okinawa Coral Calcium
- Activated Silver Germicide
- Water energising of Far Infra Red Energy.

The **Jupiter Melody** gives you the choice: 1 micron (standard) or 0.01 micron ultra filtration level using first quality Japanese organic coconut shell carbon treated with Jupiter's own antibacterial process.

This traps chlorine, contaminants, bacteria, viruses, cysts, but allows beneficial natural dissolved minerals to pass through. No need to worry; the Melody's onboard liquid crystal display keeps you informed about filter usage.

## FAR INFRA RED ENERGY – ON TAP!

The **Jupiter Melody** Biostone filter has its own supply of Far Infra Red energy. It comes from semi precious gem Tourmaline crystal in ceramic form. This amazing crystal is capable of radiating energy that assists in disinfection, in softening the water and in restructuring so that your water's natural superhydrating ability is returned to its original state.

## CORAL CALCIUM – ON TAP!

The **Jupiter Melody** Biostone filter cartridge has its own internal supply of finest grade Okinawa Coral Calcium. In its usual form, calcium is not easily absorbed due to its large atomic size. Coral Calcium in ionized form is far more easily absorbed. When compared to tap water, you may receive an increase of up to 40% in your **Jupiter Melody** water. And if you want even more, calcium inserts are available (optional) and fitted into an easily accessible port on top of the Melody. Our body's store of calcium is always being drained by acid overloads caused by stress, food, drink or pollution, plus acidic internal waste products. The Melody Biostone filter infuses Okinawa Coral Calcium into your water. Okinawa Calcium, harvested under strict environmental controls, has a unique 2:1 ratio of calcium and magnesium, which is the exact ratio we require for optimal absorption.

## IT'S YOUR CHOICE, LIVE OR DEAD WATER!

### Live Water

The perfect structure of a pure frozen water molecule.

## PURCHASE YOUR JUPITER MELODY NOW!

## ANTIOXIDANT WATER – ON TAP!

The **Jupiter Melody** gives its own supply of antioxidants.

If you've been spending up big buying antioxidant supplements and organic vegetables, you'll know just how much money you are going to save with your Melody. As water passes through the **Jupiter Melody** it converts it from simple H<sub>2</sub>O to OH<sup>-</sup>.

This negative (H<sup>-</sup>) Hydrogen ion is the primal antioxidant that has been described by Nobel Prize winner Dr Albert Szent-Gorgy as the basic building block of life.

Every time you take a glass of Melody water, you are getting around half as H<sup>-</sup> antioxidant.

## OXYGEN SATURATED WATER

The **Jupiter Melody** separates ordinary water into alkaline and acid. The alkaline water is loaded with oxygen. Your body's blood alkalinity at birth is a mild pH 7.4. If your pH falls to 7, you experience 'system failure'.

It is obvious that all body systems are co-opted to maintain correct blood pH, but an acidic lifestyle puts increased stress on these same body systems and makes their part in maintaining alkaline blood at the correct level so much harder.

Body cells are naturally acid within. Fluid outside the cells, which brings nutrient to the cell and receives energy from the cell in return, is saline, mineralised and alkaline. If not enough alkaline minerals are available to maintain alkalinity, we must 'borrow' from bones and teeth.

Dr Otto Warburg won the Nobel Prize for his work in identifying the role of oxygenated cells in the defence against cancer. Acid reduces oxygen availability enormously, usually indicated by lack of energy.

## INSTALLATION

The **Jupiter Melody** offers three useful, easy methods of installation –

1. *Benchtop or wall-mounted and attached to the kitchen tap.* Turn on your tap, flick a lever and alkaline water flows.
2. *Benchtop not attached to the tap.* Drill a small hole in your benchtop and operate the **Jupiter Melody** just by turning a dial.
3. *Under the sink.* Installation kit and qualified plumber required.
